

Training, Mentoring & Coaching

Safety Training is vital for all organisations to minimise the risk of work injuries and to demonstrate compliance with legislative requirements, which require all workers to be adequately trained and supervised.

Safety Skills Workshops

Safety Action provides a wide range of safety skills workshops suitable for organisations large and small. Our standard workshops include;

- Executive safety briefings
- Safety law for managers & supervisors
- Risk assessments & JSA's
- Safeguarding machinery
- Safety inspections and many more.
- Contractor management
- Internal safety auditing
- Safety investigations
- Safety leadership

In-house and Tailored Safety Workshops

Safety Action can conduct in-house workshops from our standard public training program, and we can tailor any workshop to suit your company policies and procedures or local needs.

Mentoring and Coaching

Our senior team have qualifications in education and are certified trainers with extensive experience in coaching and mentoring personnel to manage safety programs more effectively. We enjoy working with safety specialists and operational personnel to help improve safety performance, and can develop an effective program for you.

The Benefits of Safety Training, Mentoring & Coaching

By using Safety Action's proven safety workshops or coaching for your team, your organisation will perform more efficiently and you will find your team will be more responsive to and knowledgeable of your safety program, and seek to utilise it more effectively.

Why Use Safety Action

Safety Action is widely regarded as one of the premier providers of workplace safety skills training and coaching, and has done so for many of Australia's leading organisations.
